Terms of Sale

● All Nursery Stock Orders will be shipped to customer by freight mail or express depending on size and weight, each customer to pay shipping charges and remit to our home office in Newark, N. Y., within FIVE DAYS after arrival at shipping point.

● On Freight or Express Shipments, customer pays the Transportation charges upon arrival—such charges are usually 40c to \$1.50 depending on the size and the weight of the order.

On Parcel Post shipments a postage and insurance charge is included on customer's invoice as follows—1st and 2nd zone, 15c—3rd zone, 20c—4th and 5th zone and up, 25c.

Free Nursery Stock Given Customers To Cover Transportation Charges On Each Order Of \$5.00 Or More

● One Item (our selection) included Free with orders between \$5.00 and \$25.00.

● Two Items (our selection) included Free with orders over \$25.00.

Perennial Orders Shipped Separately By Parcel Post

On all Express and Freight Nursery Stock orders that call for 3 or more Perennial Plants, the perennial plants will be sent to customer separately by Parcel Post. This method assures delivery in field-fresh, ready-to-grow condition. A mailing and insurance charge of 15c per order will be added to each customer's invoice at time of shipment.

Collect Cash In Advance On Orders Of Less Than \$5.00

No advance payment is required on orders of \$5.00 or over. Due to the War Emergency, shortage of help and the work involved in handling small accounts, orders for less than \$5.00 must be sold for cash, to be paid by customer at the time the order is booked.

Order Not Subject To Cancellation

Customer agrees to his contract as follows:—"I understand that this stock is reserved for me immediately and I AGREE NOT TO COUNTERMAND THIS ORDER."

Time of Shipment

FALL SHIPMENTS are usually made during OCTOBER and NOVEMBER—SPRING SHIPMENTS are usually made during MARCH, APRIL and MAY. However, shipment of an order at any specified time is not guaranteed because of weather and other governing conditions over which we have no control.

HARDY, TWO YEAR, FIELD GROWN

Flowering Shrubs

For Fall or Spring Planting

Approximate height at maturity is indicated by the following symbols:—

“VD”—Very Dwarf, 2 to 3 ft.

“D”—Dwarf, 3 to 4 ft.

“MD”—Medium Dwarf, 4 to 5 ft.

“M”—Medium, 5 to 6 ft.

“MT”—Medium Tall, 6 to 7 ft.

“T”—Tall, 8 to 10 ft.

“VT”—Very Tall, over 10 ft.

All our flowering shrubs have bloomed at the nursery farm the season before marketing

SIZES GIVEN BELOW ARE HEIGHT OF SHRUB
ABOVE ROOTS WHEN SHIPPED

	Each
Althea, (Rose of Sharon), double blue, 2 to 3 ft., T.....	\$.95
Althea, (Rose of Sharon), double white, 2 to 3 ft., T.....	.95
Althea, (Rose of Sharon), double pink, 2 to 3 ft., T.....	.95
Althea, (Rose of Sharon), double purple, 2 to 3 ft., T.....	.95
Althea, (Rose of Sharon), double red, 2 to 3 ft., T.....	.95
Althea Tree, 3 to 4 ft., pink, red, purple, white, T.....	1.35

The Altheas are especially desirable as they furnish a profusion of bloom late in the season when other blossoms are scarce. They will bloom freely even in very dry weather, yield readily to any kind of training and are admirable for hedges, screens or individual planting.

Almond, double pink or white, 2 to 3 ft., MD.....	1.65
---	------

Unlike ordinary kinds which are “budded” on Peach Seedlings, our Flowering Almonds are “budded” on hardy, vigorous PLUM SEEDLINGS. This insures “long life”, plus the vigor necessary to produce an abundance of beautiful bloom.

Barberry, Thunbergii, 2 to 3 ft., D.....	.90
Barberry, Thunbergii, 18 to 24 in., D.....	.75
Barberry, Red Leaf, (Eternal Flame), 15 to 18 in., D.....	.95
Barberry, Red Leaf, (Eternal Flame), 18 to 24 in., D.....	1.10

NOTE:—for quantity prices on Barberry Thunbergii and Red Leaf Barberry Hedging see page 7.

Beauty Bush, pink, 18 to 24 in., M.....	2.45
Blue Leaf Honeysuckle, shell-pink, Blue-Green Leaves, 2 to 3 ft., T.....	1.95
Blue Mist, (Caryopteris), powdery-blue, 15 to 18 in., VD .	1.65
Burning Bush, (Square Branches), 18 to 24 in., MT.....	2.45
Butterfly Bush, violet blue, MT.....	.85
Butterfly Bush, Pink Charming, lavender-pink, MT.....	.95
Butterfly Bush, Ile de France, royal violet, MT.....	.90
Calycanthus, (Carolina Allspice or Sweet Scented Shrub) chocolate brown blossoms, 2 to 3 ft., MD.....	1.65
Coralberry, (Indian Currant), pink, 2 to 3 ft., D.....	.95
Cornus Siberica Alba, (Red Twig Dogwood), 2 to 3 ft., MT	.95
Cornus Sanguinea, (Red Osier Dogwood), white flower, 2 to 3 ft., T.....	.95
Cornus Paniculata, (Gray Dogwood), white flower, 2 to 3 ft., VT.....	.95

Flowering Shrubs—continued

	Each
Cornus Variegated , (Elegantissima), green and white leaves, 2 to 3 ft., M.	\$ 1.45
Cranberry Bush , (Viburnum Opulus), white, 2-3 ft., T.	1.95
Crimson Glory Bush , flaming-crimson, 10 to 12 in., VD.	1.25
Daphne Somerset , sweet-scented, blush pink (nearly Evergreen foliage) 18 to 24 in.	3.00
Deutzia Gracilis , slender, white, 12 to 18 in., VD.	1.45
Deutzia Lemoine , white, 18 to 24 in., D.	1.65
Deutzia Pride of Rochester , white, 2 to 3 ft., T.95
The best of the taller Deutzias. A general favorite and its popularity is well deserved.	
Dogwood , (Cornus Paniculata), gray, 2-3 ft., VT.95
Eternal Flame , (Red Leaf Barberry), 15 to 18 in., D.95
Eternal Flame , (Red Leaf Barberry), 18 to 24 in., D.	1.10
Evergreen Bittersweet , evergreen foliage, D.	1.45
Flowering Quince , scarlet, 18 to 24 in., MD.	1.45
No shrub planting is complete without this beautiful double flowering Quince. Its gorgeous display of dazzling scarlet flowers in May cover the branches before the foliage appears.	
Forsythia Fortunei , Golden Bell, yellow, 2 to 3 ft., MT.	1.25
Blossoms in the spring before the leaves appear. Very desirable and popular.	
Forsythia Intermedia , yellow, 2 to 3 ft., MT.	1.15
Forsythia Spectabilis , golden, 2 to 3 ft., T.	1.25
Forsythia Spring Glory , pale yellow, 2 to 3 ft., MT.	1.65
Forsythia Viridissima , (Upright Golden Bell), yellow, 2 to 3 ft., MT.	1.15
Fringe , purple, 2 to 3 ft., VT.	2.45
Golden Bell , (Forsythia Fortunei), 2 to 3 ft., MT.	1.25
Golden Ninebark , (Spirea Golden), yellow leaves, white flowers, 2 to 3 ft., T.95
Golden Hugonis (Rose Shrub of China), yellow, 18 to 24 in., MD.	1.65
Golden Vicary , Golden yellow foliage, 18 to 24 in., M., <u>Sold out</u>	
Gold Drop Potentilla , (Plant Patent applied for), brilliant yellow, 12 to 15 in., VD.	2.00
Honeysuckle Blue Leaf , shell-pink, Blue-Green Leaves, 2 to 3 ft., T.	1.95
Honeysuckle Fragrant , bush, creamy white, 2-3 ft., M.	1.25
Honeysuckle Morrow's , white, 2 to 3 ft., MT.95
Honeysuckle Tartarian , white, pink or red, 2 to 3 ft., T.95
Hugonis , (Golden Rose of China), yellow, 18-24 in., MD.	1.65
Hydrangea , Hills of Snow (Arboresens), white, 2 to 3 ft., D.	1.45
Hydrangea , P. G. Bush, pink, 2 to 3 ft., MT.	1.45
Hydrangea Tree , mammoth pink, 3 to 4 ft., T.	2.65
Hydrangea , French Blue, 5 to 6 branches D (needs winter protection in below zero temperatures.)	1.95
Hypericum , Sungold, (Plant Patent No. 568), golden, 15 to 18 in., VD.	2.00
Ile de France , (Butterfly Bush), deep violet, MD.90
A gorgeous flowering shrub recently originated in France. Long, arched, lilac-like, violet-purple clusters bloom in great abundance in mid-summer at a time when scarcely anything is in bloom The thickly flowered spikes are very showy in the garden and make delightful bouquets. Very fragrant. Vigorous, hardy grower.	
Indian Currant , (Coralberry), 2 to 3 ft., D.95

Flowering Shrubs—continued

	Each
Kerria Japonica (Globe Flower), yellow, 18 to 24 in., MD, (for spring planting only).....	\$ 2.45
Kerria White (Jet Bead), black berries, 18 to 24 in., MD..	1.65
Lilac, Adelaide Dunbar , double red, 2 to 3 ft., MT.....	2.15
Lilac, Chas. Joly , double purplish red, 2 to 3 ft., MT.....	2.15
Lilac, Chas. Tenth , deep red, 2 to 3 ft., MT.....	2.15
Lilac, Edith Cavell , double white, 2 to 3 ft., MT.....	2.15
Lilac, Madame Lemoine , white, double, 2 to 3 ft., MT....	2.15
Lilac, Ludwig Spaeth , dark purple, 2 to 3 ft., MT.....	2.15
Lilac, Marc Michelli , blue double, 2 to 3 ft., MT.....	2.25
Lilac, Marie Legraye , white, 2 to 3 ft., MT.....	2.15
Lilac, Michael Buchner , deep lilac, dbl., 2 to 3 ft., MT....	2.15
Lilac, Pres. Grevy , blue, double, 2 to 3 ft., MT.....	2.15
Lilac, Persian , 2 to 3 ft., T.....	1.45
Lilac, Souvenir , reddish purple, 2 to 3 ft., MT.....	2.25
Lilac , pink or white, 2 to 3 ft., VT.....	1.65
Lilac , red, 2 to 3 ft., VT.....	1.65
Lilac , purple, 2 to 3 ft., VT.....	1.25
Pepper Bush , white, 2 to 3 ft., MD.....	1.65
Philadelphus Aurea , (Golden Syringa), 15 to 18 in., MD..	1.95
Privet, Regal , blue berries, 18 to 24 in., M.....	1.65
Purple Fringe , 2 to 3 ft., VT.....	2.45
Rose Acacia , pink, 2 to 3 ft., M.....	1.45
Rose of Sharon , (Althea), blue, white, pink, purple, red, 2 to 3 ft., T.....	.95
Snowball, Common , white, 2 to 3 ft., T.....	1.45
Snowball, Dentatum , (Arrowwood), 2 to 3 ft., VT.....	1.45
Snowball, Japonica , white, 2 to 3 ft., MT.....	1.65
Snowbank Bush , snow-white, 18 to 24., M.D.....	1.65
Snowberry , white berries, 2 to 3 ft., MD.....	.95

The Snowberry is a shrub of great value—for its fine foliage—slender gracefully bending branches—dainty pink blossoms in June and July. It will thrive in dry barren soil—it will grow in shade so dense that almost nothing else will grow. Large white berries in Fall are very decorative.

Spirea, Anthony Waterer , crimson, 12 to 18 in., VD.....	1.10
Spirea, Astilbe , (A Perennial), VD.....	1.15
Spirea, Billardi , pink, 2 to 3 ft., M.....	.95
Spirea, Bumalda , light pink, 18 to 24 in., VD.....	1.15
Spirea, Callosa Alba , white, 12 to 18 in., VD.....	1.45
Spirea, Douglasi , pink, 2 to 3 ft., MT.....	1.15
Spirea, Froebelia , pink, 12 to 18 in., D.....	1.15
Spirea, Golden , (Golden Ninebark), 2 to 3 ft., T.....	.95
Spirea, Prunifolia , (Bridal Wreath), white, 2 to 3 ft., MT..	1.45
Spirea, Thunbergii , white, 18 to 24 in., MD.....	1.25
Spirea, Van Houtte , white, 2 to 3 ft., MT.....	.65
Spirea, Van Houtte , white, 3 to 4 ft., MT.....	.75

The most popular of all the Spireas, especially valued because of its hardiness and the rapidity of its growth. Produces white flowers in clusters during May and June. Foliage dense deep green.

Sungold, Hypericum , (Plant Patent No. 568), golden, 15 to 18 in., VD.....	2.00
Syringa, Coronarius (Mock Orange), white, 2 to 3 ft., T...	.95
Syringa, Golden (Philadelphus Aurea), 15 to 18 in., MD..	1.95
Syringa, Lemoine , very sweet scented, white, 2 to 3 ft., MT	.95

Flowering Shrubs—continued

	Each
Syringa, Virginalis , white, 2 to 3 ft., MT.....	\$1.95
Because of its rare beauty, its unusually long blooming period beginning in May, its large white individual flowers, which measure two inches or more in diameter, <i>Syringa Virginalis</i> should be in every planting.	
Tamarix , (Tamarisk), pink, 2 to 3 ft., VT.....	1.25
Viburnum , (Snowball), white, 2 to 3 ft., T.....	1.45
Viburnum Fragrant , (Carlesi), striking pink, 15 to 18 in., M.....	3.65
Vitex Macrophylla , sky-blue, 18 to 24 in., M.....	1.50
Weigela Bristol Ruby , (Plant Patent No. 492), ruby-red, 2 to 3 ft., M.....	1.75
Weigela, Candida , white, 2 to 3 ft., MT.....	1.35
Weigela, Eva Rathke , crimson, 18 to 24 in., MD.....	1.65
Weigela, Floribunda , dark red, 18 to 24 in., MT.....	1.50
Weigela, Rosea , bright rose, 2 to 3 ft., MT.....	1.25
Weigela, Variegated , rose pink, 18 to 24 in., MT.....	1.60
Witch Hazel , yellow, 2 to 3 ft., T.....	1.25
Winged Burning Bush , square branches, 18 to 24 in., MT.....	2.45

TALL, SHELTERING

Shade Trees

For Street and Lawn Planting

For Fall or Spring Planting

All sizes refer to height above roots. Be sure to give size.

Our experience of many years has shown us that the size appearing after each variety transplants to the best advantage.

"S" indicates best varieties for street planting.

Tree Roses

ALL NEW PATENTED VARIETIES

For Spring Planting Only

(Do not take orders for Tree Roses for Fall Planting)

	Each
Extra Large Selected Trees, 3½ ft. tall.....	\$6.95
Countess Vandal, coppery-orange and pink (Patent No. 38)	
Dickson's Red, scarlet-red (Plant Patent No. 376)	
Eclipse, golden-yellow (Plant Patent No. 172)	
McGredy's Salmon, apricot-salmon, (Plant Patent No. 410)	
Saturnia, cardinal-red (Plant Patent No. 349)	

HOW TO GROW TREE ROSES SUCCESSFULLY

Plant in SPRING ONLY. Tie the stem securely to a stake with strips of cloth. Prune back the flowering branches each season to 3 or 4 eyes.

WINTER PROTECTION in Cold Climate: Before freezing weather starts bend the stem over slowly until the head rests on the ground, loosening the roots with a fork on the side opposite from the side the stem is being bent. Drive a stake next to the crown and tie securely. Then cover entire head with soil. Stem can be protected with burlap or paper.

Fruit Department

PAGES 27-34

FRUIT TREES AND BUSH FRUITS IN WARTIME

In this so-called land of plenty—our America—we are faced with the worst food shortage in history, and it is almost a certainty it will be worse before it gets better.

Because of the extreme need for more food, the production of vitamin-filled, fresh, tree-ripened home-grown fruits becomes increasingly important.

Unless home owners and farmers plan immediately to plant a family fruit garden—many will not have enough fresh-fruit to meet health needs.

In co-operation with our Government's Victory Garden Program, it is your Patriotic duty to encourage the fulfillment of the Victory Garden Program among village and farm families in your section. You are your community's National Victory Garden Advisor.

In the following Fruit Department you will find a wide selection of essential quick-bearing, heavy-crop Fruit Trees and Bush Fruits for your customers.

ASSURED POLLINATION IS THE RESULT OF PROPER SELECTION AND PLANTING OF “ROOSTER” TREES

Whenever you are selling Apple Trees, Sweet Cherry Trees, Pear Trees, Plum Trees, and Hale Peach Trees, (whether it is only a few for the city back yard, a small farm family fruit garden or an extensive commercial orchard) always suggest planting “Rooster” Trees for assured pollination, the secret of full crops year after year.

Use your new “Rooster Tree Folder” which pictures the “Rooster” Apple Trees and contains Pollination Charts for Apples, Sweet Cherries, Pear, Plum and Hale Peach Trees.

Also—Tell the convincing “Rooster” Tree story you will find given in full detail on page 38 of your Fruit Demonstration Book Sales Manual and picturized for your customer on page 22 of your Fruit Demonstration Book.

This service is provided by our trained Nursery salesmen. It's a service that assures full fruit production from each fruit tree you sell.

All sizes of Fruit Trees refer to height above roots.

Peach Trees

For Spring Planting Only

**PEACH TREES WILL LIVE AND GROW BETTER IF
PLANTED IN THE SPRING. FALL PLANTING
IS NOT RECOMMENDED**

Peach trees, unlike other Fruit Trees, do not become dormant early in the Fall, that is, the sap does not return to the roots as early as with other types of Fruit Trees.

As a result of this condition, should the Winter be severe the losses on Fall Planted Peach Trees is apt to be heavy. To eliminate this possibility we recommend that Peach Trees be planted in the SPRING. All other Fruit Trees can be planted either in the Fall or Spring.

TOP QUALITY STRAWBERRY PLANTS FOR YOUR CUSTOMERS

Many people have the mistaken idea that August is the best time to plant Strawberry Plants. The fact is, the only plants which could possibly be planted in August are either Old Plants which have borne one or more crops of Fruit, or Pot Plants. The first are not satisfactory and the second are impractical.

The plants we sell are field grown New Plants, and under normal growing conditions it is impossible to develop a rugged, heavy, fibrous-rooted new plant for August shipment. They are not fully developed until late September, and cannot be shipped earlier. Do not promise earlier delivery.

The original plant that produces these new plants is not allowed to produce Fruit. Thus, the surplus growing strength and vigor that would ordinarily be consumed in producing strawberries is transmitted by nature from the Mother plant to her offspring, resulting in producing vigorous, heavy-rooted, top quality plants, capable of bearing profitable crops of First Quality Berries. Only the plants that develop close to the Mother plant are used. Weak, inferior quality plants that grow at the end of the runners are not used in filling our orders.

RIPENING DATES

Average Ripening dates following each variety are based on best authentic information obtainable for Northern New York State Territory. Ripening dates will vary according to territory—a few days earlier in the south, farther north a few days later.

Every Customer Should Know About - - -

Our 7 Points of Superiority

1. **PEDIGREED PARENTAGE**—"As important in Nursery Stock as in breeding horses, cows, and dogs."
2. **SHIELD-TYPE BUDDING**—"A Tiny detail of immense importance."
3. **INDIVIDUAL SPACING**—"Fewer Trees per acre insure big strong growth."
4. **SCIENTIFIC ROOT PRUNING**—"Vigorous Growth and permanent satisfaction insurance."
5. **CONTROLLED POLLINATION**—"Insures a full yield of fresh fruit year after year."
6. **MOISTURE-CONTROL PACKING**—"Delivery in field—fresh condition."
7. **INSPECTION BY THE FAMOUS AUTHORITY—DR. SHAW AND ASSOCIATES**—"Assures True-To-Name Stock."

These 7 points of Superiority (fully explained in detail in your "7 Reasons Why" Booklet and the "Sales Manual for Fruit Demonstration Book")—sells your quality so well that price is put forever in the discard. And selling quality is so important that, if you should make the sale before telling your customer about our 7 Reasons of Superiority, then by all means explain each reason after the order is written and signed.

Here's the reason why; after you've left with your order, the purchaser may pick up a mail-order catalog or be solicited by a peddler of cheap, low-grade nursery stock. Your customer doesn't know anything about pedigreed stock or about all the other elements that go into producing what you have sold. Then your customer is left with an unanswered question in his mind—an unexplored or unexplained doubt. As a result, he may try to cancel; he may refuse to accept shipment; or he may talk to, and sour other prospects in your territory.

End every sale with a talk and explanation of the points on what makes quality, how much it means and how little the difference in price means between the highest quality and low-price, job-lot nursery stock.

RECOMMENDED DISTANCE FOR PLANTING AND NUMBER OF TREES AND PLANTS PER ACRE

Apples:

36 x 36 ft.— 33 Trees
40 x 40 ft.— 27 Trees

Raspberries (red):

2 x 7 ft.—3111 Bushes
3 x 7 ft.—2074 Bushes

Raspberries (black):

3 x 7 ft.—2074 Bushes

Strawberries:

1 x 4 ft.—10,890 Plants

To estimate the number of plants required for an acre at any given distance, multiply the distance between the rows by the distance between the plants, which will give the number of square feet allotted to each plant, and divide the number of square feet in an acre (43,560) by this number. The quotient will be the number of plants required.

AGE AT WHICH DIFFERENT TREES USUALLY FRUIT

XXX Size Only

This varies greatly with different varieties. Such apples as "Yellow Transparent" and "Duchess of Oldenburg" often fruit the second year, while "Northern Spy" seldom fruit in less than ten years after transplanting, though it is one of the best apples and a prolific yielder when of bearing age. The average time after planting is, for

Apples.....	2 to 6 yrs.	Grapes.....	2 yrs.
Blackberries.....	1 to 2 "	Plums.....	2 to 4 "

**OUR CONVINCING, CONFIDENCE-BUILDING
REPLACEMENT GUARANTEE MEANS
WHAT IT SAYS**

REPLACEMENT GUARANTEE

Seller agrees to replace **FREE** all nursery stock purchased in this order that fails to live the first year, except Evergreens, replacing these at one-half the original purchase price, provided purchaser has paid promptly as agreed in this order, and that the nursery stock was promptly and properly planted on arrival and properly cared for. Duplicate copy of your original order blank and remittance for Evergreen Replacements must accompany request for replacement.

**IMPORTANT TREE ROSE
REPLACEMENT NOTICE**

Our Tree Roses are guaranteed to **BLOOM THE FIRST SEASON** after planting, or will be **REPLACED FREE** of extra charge. Winter loss due to improper winter protection does not entitle the customer to replacement. Producing blooms the first season is evidence that the Tree Rose was alive and healthy on delivery to the customer.

A sufficient quantity of our 1942 varieties have been produced to take care of normal replacements. These varieties are—Catolonia, J. Otto Thielow, Mrs. Pierre S. Du Pont, Mme. Jules Bouche and Robin Hood.

Our entire supply of the above are reserved for replacement and therefore cannot be offered for sale. Sell only the 5 new Patented Varieties listed on page 15 of this price list.

It is not advisable to promise a customer a definite date of delivery. We always ship each order at proper time for planting in the Fall or Spring.

ALL QUOTATIONS in this Price List are for immediate acceptance, and subject to our being able to supply stock at shipping time without liability to us should injury befall the stock from frost, hail, fire or other causes beyond our control. We aim to keep our varieties true to name and will replace on proper proof, all that prove otherwise, or refund the purchase price, but we do not give any warranty, expressed or implied, and it is mutually agreed between the purchaser and ourselves that we shall not, at any time, be held responsible for a greater amount than the purchase price. Fall shipments are usually made during October and November, and Spring shipments March, April, May, according to locality, weather and other conditions, but departure or arrival is not guaranteed at any specified time or season.

NON-WARRANTY. The descriptions in this price list are accurate to the best of our knowledge and belief, but we give no warranty thereon, expressed or implied, and we will not be responsible in any manner for any errors or omissions. If any errors in the descriptions are found, we will be very grateful to our readers if they will kindly call our attention to same so they may be eliminated in our next edition.

Prices Subject to Change Without Notice.
